FINDINGS

1. This facility is an existing 144.6 acre Class II-2 sanitary landfill. This facility began site operations in 1973. Site life expectancy is 1½ years. The trench method of landfill operation is utilized. This facility is located at Redding, California. An average of 100 tons of wastes are received at this site daily. Types of wastes received at the site include:

- residential wastes
- dead animals
- rinsed pesticide containers
- tires
- demolition debris
- infectious wastes

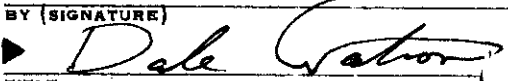

Hazardous wastes are not accepted at this site. Salvage operations are conducted at this site. The site is operated from 10 AM to 6 PM daily. The design and operation of this facility as it existed before August 15, 1977 are as described in the Report of Disposal Site Information dated 1977, and its supporting documents which are hereby made a part of this permit.

2. No changes in design or operation of this facility, except as authorized by this permit, are anticipated in the next five years.
3. The following documents condition the design and operation of this facility:
- California Regional Water Quality Control Board, Central Valley Region:
 - Waste Discharge Requirements No. 74-312
 - Land Use Permit No.
4. Land within 1000 feet of this site is zoned unclassified.

5. This facility's current operations are not in compliance with the State Minimum Standards for Solid Waste Handling and Disposal in that they violate Section 17682. The ~~CONDITIONS~~ ~~section of this permit will establish an appropriate time schedule for compliance with~~ ~~these sections~~

granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.
